

GROUND TRANSPORTATION SERVICES FOR TERMINAL 1.5

As part of the \$14 billion airport modernization program, construction of Terminal 1.5 (located between Terminal 1 and 2) was recently completed and will be operational on Saturday, May 1, 2021. This four-story building will allow passengers to move between terminals 1 and 2 beyond security screening. It will also connect to the new Automated People Mover (APM) train in 2023. The following airlines will begin relocating and operating from Terminal 1.5 on Saturday, May 1, 2021.

- Allegiant
- Frontier
- Sun Country
- Viva Aerobus

For all ground transportation services, wayfinding signs inside the terminal will direct passengers to existing Ground Transportation Waiting Areas located at or near Terminal 1 or 2 on Arrival and Departure levels. All ground transportation service providers including rental car, hotel, private parking, taxi and LAX services should be aware of the relocation of these airlines to Terminal 1.5. Below is a link to the map of the Ground Transportation Waiting Areas.
